

Submitter: Nancy Nichols

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: HB3932

I support HB 3932. Allowing beavers to "do their thing" to improve water quality on public lands is a cost effective way of improving water quality. Engineered restoration projects can be very expensive. Beavers create many of the same conditions for free. Banning trapping on public lands can benefit many species that depend on the beaver ponds. Please vote yes on HB 3932,
