

Submitter:

Paul Dixon

On Behalf Of:

Committee:

House Committee On Education

Measure, Appointment or Topic:

SB1098

This bill seeks to prevent the removal of "ANY" books in school libraries, regardless of whether the content of the books is deemed inappropriate by students, student parents or the general public, for the age group of the students who will have access to the books in these libraries. Students, parents and the public should always have a voice in what books are available in school libraries.
