

Submitter:	Dianna Lamb
On Behalf Of:	Oregon
Committee:	House Committee On Revenue
Measure, Appointment or Topic:	HB3940

How about put these fires out immediately.No more of this nonsense.Put them out no tax on bottles or on the insurance companies,put the fires out and no legalized arson.No.We lost 2 million acres last year because IMT stood around and boxed the fire then backburned using torches and drones until the snow flew. REALLY? Put this out.This year we are already torching the forest around the country and this is supposed to be a good idea. This is asinine at best.We grow weary of this nonsense,and it amazes me that you can look us in the eye ,and try everything in your power to continue to charge us for destroying this state.
