

Submitter: Shelby Staffenson

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: HB3546

I strongly oppose HB3546. This bill creates a class of users that will ultimately be charged higher rates to fund or rebate or perhaps further subsidize solar or wind farms. It also could cost us jobs. This bill may very well be a wolf in sheep's clothing. Please vote NO on HB3546.
