

Submitter: Shelby Staffenson

On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or  
Topic: SB726

I oppose SB726. Requiring landfill operators to monitor surface emissions using a new unproven technology that can be manipulated by weather conditions is a bad idea. It will only put money in the pockets of those selling this new technology and add costs to consumers. Please vote NO on SB726.
