

Submitter: David Washousky

On Behalf Of:

Committee: Senate Committee On Natural Resources and  
Wildfire

Measure, Appointment or  
Topic: HB3932

I strongly oppose HB3932 because it is not based on real conservation science. Please let the wildlife biologists whose job it is to study and manage wildlife day in and day out handle conservation science. This bill is an affront to logical wildlife management, and will have unintended negative consequences on both habitat and human communities. Please keep politics out of wildlife and oppose this bill.
