

Submitter: Kaye Engstrom

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: SB1191

I support bill SB 1191 (Know Your Rights Protection Bill) because I believe that our freedoms for a democratic government rely on being informed and being able to engage in the government. Education is the foundation for being informed and being able to advocate for our constitutional and civil rights. I can't think of any logical reason why any government official or representative of the people would want to consider any of these actions or liberties an obstruction of justice, other than dishonorable intentions.
