Thank you for allowing me to submit testimony regarding HB 3932A

Trapping beaver has been a part of the History of Oregon, and has been handed down for generations. It is proven that we have more than enough beaver in the State of Oregon and there is no reason to not continue trapping them. As with all wildlife it needs controlled or they become a huge nuisance, and will actually hurt their well being more than if they are controlled. This is simply one more way of taking our freedom and rights away from hardworking, tax paying, law abiding Oregonians. In our Hunting Camps we teach women and youth the art of trapping, it is quite a important part of hunting, Conservation and our Hunting Heritage. It would be very sad to see this taken from us. I would as you to please vote no on this Bill, Thank you, Candy
