

Submitter: Marina Sagardua

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: HB3932

Dear Senator Golden and Members of the Natural Resources Committee

The high number of Oregon's contaminated, dying, rivers and streams has prompted the idea of relying on beavers to do the job of cleansing kilometers of the State water system.

We hope that you'll help this project prosper, keeping beavers safe from trapping and hunting in as many waterways as possible.

Thank you
