

Submitter: Austin Looney

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: HB3932

To whom it may concern. I strongly oppose this bill as it in no way is rooted in sound science. Beavers are sustainably harvested according to our best wildlife practices put in place by district biologists. Please leave matters such as this to the experts and allow registered trappers to continue the traditional use practice of harvesting the animal that this country was built upon.

Thank you
