

Submitter: Betty Reynolds

On Behalf Of:

Committee: House Committee On Behavioral Health and Health
Care

Measure, Appointment or Topic: SB951

Please pass SB 951. Finding healthcare can be a challenge. Healthcare should be a fundamental right with clinical decisions made by medical professionals, not by corporations which value profits over patient care. By revising Oregon's Corporate Practice of Medicine doctrine, SB 951 contains safeguards to prevent corporations from buying up physician-owned clinics and limiting the corporate practice of medicine.

Physician control over medical decision-making results in better patient care and better medical outcomes, while corporate practice of medicine leads to restrictions and rationing of care.

Thank you,

Betty Reynolds
