

Submitter:	David Kay
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	HB3932

How positively Trumpian, ignore the scientific facts to impose "feel good" legislation. This bill crosses so many lines to "protect" an animal that doesn't need it. Beaver can cause massive damage just doing what they do, the necessary culling must be done using established scientific disciplines. Also targeted in this bill are funds directed to ODFW from license sales and sporting goods for the management of resources using scientific fact instead of guessing, leave what is not broken alone.
