

Submitter:	Carol Valentine
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	HB3932

As a rural resident with an impaired waterway running through my property, I ask you to support HB 3932. Beavers are amazing ecosystem engineers who can help remedy many of the harmful water quality impacts from pollution, sedimentation, or high water temperatures—for free. Please vote for this bill to allow our state's (nick)namesake animal to disperse to public lands and stay there long enough to perform their ecological functions without getting trapped out.
