

Submitter:	David Tetrick
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	HB3932

I oppose HB 3932 because it takes wildlife decisions out of established science-based procedures and moves them into the court of public opinion instead. Beavers are incredible creatures, without a doubt, and provide vital ecosystem functions, but we have a protocol in place for management already- non-lethal first and lethal as a final option. Don't insert politics into this- it isn't needed and doesn't help beavers or any other wildlife.
