

Submitter: Kristin Gross

On Behalf Of:

Committee: Senate Committee On Natural Resources and  
Wildfire

Measure, Appointment or Topic: HB3932

I am writing in support of HB 3932. A key component to restoring Oregon's waterways are beavers. Their habitat and water management increases water quality and creates habitat for fish, birds and other animals. If beavers are trapped out, there are many restoration project that won't be possible.
