Committee: House Committee On Revenue

Measure, Appointment or Topic: HB3962

As a former Hood River City Councilor and Bed and Breakfast owner I plead with you to keep the TRT taxes as is. I served for 10 years on our Hood River Chamber of Commerce, while simultaneously on City Council so I know well the challenges of funding both the City and the tourism funds that bring in revenues for local businesses. The current system works and is balanced for both without raising taxes for consumers. During this challenging economic travel period we need to stay competitive and not raise the TRT taxes.
