

Submitter: Katherine Wolfe

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: HB3932

Beavers have been maligned, threatened and misunderstood for too long. They provide vital services that we humans have interrupted to our own detriment. It is only right and sensible to allow them to maintain water levels, restore meadows and in the process to help alleviate drought and wildfire. This is a sensible bill that needs to be passed, for the good of our ecosystems and our own future.
