I whole heartedly support HB 3932 (the "beaver and water quality bill") and now it has officially passed the House Floor! This bill allows beavers to live on water-quality limited streams in Oregon without being hunted, and is now in need of support to pass a Senate committee.

It simply couldn't be better than to let nature's engineers do the work of restoring watersheds, clean water supplies, wildlife habitat (salmon!), and provide fire breaks to protect us all against wildfires? All those benefits for free? YES. Simply protect and restore beavers in Oregon.

Please throw your support behind HB 3932!
