Hi, We need witness protection because they won't stop following and harassing my son and I. They also have groups of other people harassing us. They have us on a GPS system or on a signal chat. Please help us they made us homeless I know one of the police men that was in on it too my ex friend husband. He was the police chief of Portland, Oregon, last year or 2023 But I won't say his name till I can know we have safety. They have the police after us now!

Thanks,
