

Submitter: Michael Beaty

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: HB3932

I support HB3932 to eliminate the risks from trapping actions that might exploit or undermine the extensive investments being made to restore beaver habitat and populations for improved water quality and related flows.

In my home watershed East Pine Creek (Baker County) I annually volunteer for the Powder Basin Watershed Council water quality monitoring program in their interests to restore aquatic and riparian habitat for bull trout and beaver populations.
