

Submitter: Cindy Hull

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: HB3932

I have been volunteering in stream restoration projects during the past decade and have come to appreciate the important role beavers play in healthy oregon streams. I hope every legislator who casts a vote on HB3932 takes the time to witness first hand what happens to our waterways when beavers and their habitat disappear. It isn't difficult to notice the unhealthy effects on the river, the fish, and the streambanks devoid of vegetation, shade, and many species of animals. Please cast a vote to protect our beavers and give them back their birthright to the streams and give us a greater likelihood that those streams will continue to thrive and not disappear forever.
