Hello,

I am writing in support of physical therapists having the power to order DME. As a physical therapist, I see daily the hurdles patients with mobility constraints face in trying to access their environments and the resources essential to enable that access. I am a mobility specialist, that is the role of a PT: to restore mobility and function. I am highly qualified to determine what durable medical equipment a patient needs. Please help me help my patients by letting me make one hurdle smaller for them. Please let PTs prescribe.

Thank you,
-Gwen O'Brien DPT, PT
