Dear Oregon Legislature,
I support HB 3190, and extending the special tax assessment for historic properties. This program has proven to be a useful tool for the restoration and revitalization of properties throughout the state of Oregon. It helps preserve the cultural assets that make our built environment, especially the downtown core of cities, both unique and inviting. While I would like to see the special assessment for historic properties available to all eligible historic properties, it is especially important to continue this great program for the commercial downtown areas.

Thanks,
Camron Settlemier
