

Submitter:	Elizabeth Thompson
On Behalf Of:	Amy Werner
Committee:	Senate Committee On Health Care
Measure, Appointment or Topic:	HB3824

Dr. Amy Werner has been my physical therapist for a year now. She has helped me tremendously maintain the strength I've gained in my body after a history of hip and ankle injuries. As a dancer, her care and expertise has been an integral apart of my ability to maintain my career dancing for professional sports. The access to prescription capabilities that this bill would provide her upon passing would only enhance the efficiency and effectiveness of her care. I highly support this bill and think doctors of physical therapy certainly have the required knowledge and experience to prescribe necessary treatments that this bill would allow.
