

Submitter: Ryan Thompson

On Behalf Of:

Committee: Senate Committee On Natural Resources and  
Wildfire

Measure, Appointment or Topic: HB3932

I strongly oppose HB3932 ! I don't understand how taking trapping beaver on watersheds/waterways is going to make that big of an impact looking at numbers from ODFW last year less then 1500 beavers were removed from the state . I trapped a beaver job this year on a 20 acer pond took 2 adult beavers out and 3 weeks later they were back in that pond taking down trees . This bill is only going to make land owners have more conflict with beavers salmon spawning ground is going to keep getting worse the stagnant water is going to worsen behind there dams !
