HB3824

As a physical therapist practicing in Oregon, passage of HB 3824 is vitally important because it recognizes the vital role that PTs play in Oregon's health care system and the rigorous training, education, and experience that PTs bring to serve our patients. Personally, passage of HB 3824 would improve my ability to serve patients by enhancing patient care, streamlining healthcare services, supporting the Physical Therapy profession. For these reasons, I urge the committee to support HB 3824. Patients struggle to find care as it is with the vacuum of healthcare providers, there is no reason to continue to limit them by not allowing an entire group of professionals its full capacity to help them. This bill represents a forward-thinking approach to healthcare that prioritizes patient access, efficiency, and the advancement of the physical therapy profession.
