

Submitter: Dana Brown

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: HB3932

I urge your support for HB 3932. HB 3932 would prohibit killing beavers for sport or fur on public lands in and near waterways with identified water quality problems. Protecting beavers in these areas is important because the dams beavers build improve water quality by creating healthy floodplains and filtering pollutants. Given all the benefits beavers provide, and also for the sake of treating beavers more humanely, it does not make sense to let people hunt and trap them purely for recreation and fur.
