

Submitter: Karen Boulton

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB2977

Please please please support HB 2977. Wildlife protection is a paramount issue not only for vulnerable animals and their territories, but also it is a very important safeguard for towns and communities that rely on curious visitors and tourists who support those economies. With out rigorous habitat protection for animals many of these folks who live in these beautiful areas will loose their livelihoods when these environments are neglected and diminished.

Please support HB 2977.

Thanks you.

Karen Boulton and Jonathan Briggs
