Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB2977

This bill would provide necessary funding for wildlife and habitat conservation by increasing the state tourism tax from 1.5% to 2.5%. Even with this 1% increase, Oregon would still have one of the lowest state tourism taxes in the country. In Portland, to me, the flora and fauna are everything; they are what made me move here. The fact that we treasure and care for them here are what makes Portland so special and unique.
