

Submitter: Ellen Hall-Chave

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB2977

Please support this bill! Protecting wildlife is vital for the health of our environment and complex ecosystems, upon which our our own health and food supply depend. I and other tourists who travel here for the beauty of our state for hiking, fishing, and birding, can help support that state with just a few more dollars on a hotel stay. Visitors can help care for the very landscapes and wildlife that are the reason many come to Oregon.

Thank you,
Ellen Hall-Chave
