

Submitter:	Lacey McQuead
On Behalf Of:	City of Enterprise
Committee:	House Committee On Revenue
Measure, Appointment or Topic:	HB3962

Smaller cities have continuous struggle with the minimal uses allowed for transient lodging tax. Being in an area of significant tourism, our summer months require additional patrol, additional call-outs for our first responders, and an increase in traffic accidents. Including "tourism-impacted services" as an allowable use in the restricted 70% portion, would help financially support these requirements. We sincerely ask you to consider allowing "tourism-impacted services" as part of the 70% of allowed expenditures. Small cities need the help!

Sincerely,

Lacey McQuead
