

Submitter:	Robert Waterhouse
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	HB3932

Personal testimony- This has always been a part of our history, and way of life. It has been around since the beginning of this country. Let the people who trap tell the science of the Beavers. They are a beautiful mammal and a great dam builder. If manage right by trapping the beavers and man will live together for a very long time. By taking trapping out of the picture, this bill will only make the land unbalance in the long term. We need both marshes and upland territories. Taking away one will destroy the other. We need learn how to manage not take away from managing.

Thanks for reading. Bob
