On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB2977

HB 2977—The 1% for Wildlife Bill—would increase the transient lodging tax by just 1% to provide vital funds to the Oregon Conservation Strategy, protecting vulnerable wildlife and habitats across Oregon. Wildlife is held in public trust for all Oregonians, who increasingly value their wildlife alive and thriving.? HB 2977 would allow the growing non-consumptive outdoor and wildlife-related recreation constituency to contribute vital resources to implement the Oregon Conservation Strategy, protecting habitats and species essential to Oregon's economy, ecosystems, and wildlife. Experiencing Oregon's natural wonders is worth it and more. Help make visitors aware of how much we value our natural world and hope they too will play a part in supporting its health and abundance.
