

Submitter: k davis

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB2977

Please pass HB2977. 1% for Wildlife is a small ask that will do a huge amount of good toward protecting our wildlife! With 300 species in OR currently recognized as being at an elevated risk of extinction, we need to move quickly to address the risks to them. Tourists come to OR to enjoy our seas, deserts, mountains and forests.

Their presence and travel unfortunately takes a toll on the habitats and species that desperately need increased protections. Please support this bill now before our biodiversity crashes as it has in so many areas around our globe and OR's economy collapses as tourists find more vibrant places to visit.

Thank you.
