Zephyr Klinger

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

HB3824

I have hypermobile Ehlers Danlos Syndrome and physical therapy has been an integral component of my care for over 2 years. I was dry needled for the first time about 3 months ago, and incorporating the practice into my care regimen has dramatically improved my health outcomes. Between the prescribed exercises, dry needling and manual therapies, I feel better, move with less pain and have injuries. Please pass this bill so your constituents can receive the care they deserve!
