Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	HB3932

I have concerns over the unaddressed pitfalls and potential environmental hazards this bill may be liable for. There are potentially millions of dollars' worth of Oregon taxpayer liability in maintenance, damage to endangered species, affected private lands, agriculture and more. To date we have seen no management plan incorporated in this bill. It is our opinion this bill is very short-sighted and lacking in research and data.

We believe it is reasonable for the sponsors of this bill to produce the findings of any environmental studies and estimated initial costs and annual maintenance costs of this proposal
