

Submitter:	Kyle Stump
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	HB3932

I am writing in opposition to this bill. It has no basis in scientific data and is merely an effort to push an agenda based on emotion. If wildlife professionals were allowed to share the data that has been compiled in Oregon and elsewhere it would show that trapping of these fur bearers by public licensed trappers directly contributes to the conservation and healthy management of beaver.
