

Submitter: Nathaniel Correia

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: HB3824

Oregon is one of 4 states to not allow PTs to dry needle. I was able to learn about dry needling in DPT school in Texas and many patients saw the benefits of it and the outcomes were great. In addition, the changes for PTs are things that would help patients get the care they need in a timely manner while allowing clinicians to practice at their level of knowledge from the doctorate degree that we obtained for years of graduate level school that we have to attend.
