

Submitter: Dot Fisher-Smith

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: HB3932

Please pass this bill. We need beavers to help improve watersheds, and to provide climate resilience and wildfire resistance.

It's vital to close beaver hunting and trapping in waterways on public lands already classified as impaired so that beavers in these areas are safe to do the work they are here to do--

to help mprove water quality and restore habitat.

Please make every effort to ensure the passage of this bill. Thank you,

Sincerely,

Dot Fisher-Smith
