

Submitter: Vicki Hames

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: HB3932

I support HB 3932. Scientific evidence has shown that beaver dams can greatly improve water quality issues in impaired streams and provide many benefits to our wild lands, including making the land more fire resilient. And they do all this great work for free. Please support the banning of hunting and trapping of beavers on public lands, and the important work that beavers do. Thank you.
