Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

HB3824

Please do not pass this bill. I do not support physical therapist being able to do dry needling without the training that acupuncturist have. It puts their patience at risk. Acupuncturist go through a tremendous amount of training to be able to do what they do effectively and safely. Physical therapist would be able to stick needles in patients after attending a weekend seminar. I do not believe this is in the best interest of a patient.
