Dear Chair Nosse and Members of the Committee,

My name is Taylor Christopher, and I serve as a Physical Therapist Assistant at Mountain Valley Therapy in Oregon. I'm writing today in strong support of HB 3824A, the Physical Therapy Modernization Act. This bill is a crucial step toward aligning Oregon's physical therapy statutes with modern clinical standards and safeguarding the integrity of our profession.

As a PTA working directly with patients every day, I see the importance of maintaining a regulatory framework that not only reflects current practice but also protects the quality and safety of care we deliver. HB 3824A responsibly updates outdated definitions and clarifies supervision requirements, ensuring that licensed PTs and PTAs can operate within their full scope while maintaining patient trust and safety.

What this bill means to me—beyond the legislative language—is the preservation of professional standards that elevate our field. It reinforces the collaborative structure between PTs and PTAs, supports evidence-based practice, and brings Oregon in line with national norms. These updates aren't just bureaucratic; they are foundational to how we serve our communities with accountability and skill.

I urge you to pass HB 3824A and help Oregon's physical therapy professionals continue to provide high-quality, ethical, and modern care. Thank you for your time and for your commitment to advancing our healthcare system.

Sincerely,

**Taylor Christopher, PTA**
