

Submitter: Michael Makher

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: HB3824

My name is Dr. Michael Makher and I am a physical therapist in Hillsboro, OR. Dry needling has been in our scope for numerous years and since then, I have seen a lot of relief for acute pain for patients particularly with low back or sports injuries. If this bill is passed it will allow for patients to get access to care they need and reduce lag or inefficiencies in their care. This will result in reducing any systematic burdens and healthcare expenditures by the government. I urge you to pass this bill in its entirety.
