

Submitter: Kevin Tanski

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: HB3932

HB3932 is perhaps the most consequential and cost effective action this House can take to help ensure clean, ample water and ecological resilience for the future of Oregon. Beavers belong in the Oregon landscape, and are supreme allies in our efforts to reduce the toll of wildfires and create healthy habitats for humans and many species of plants and animals, including those listed as species of concern in our state. Thank you for your time and service, and I strongly urge your favorable support of HB3932.
