Joint Committee on Ways and Means Subcommittee on Capital Construction
Salem OR

Dear Ways and Means Joint Sub-committee,

The City of Warrenton is respectfully requesting an infrastructure capital project from the Ways and Means budget for our new Wastewater Treatment Plant. Our request is for \$8 million dollars. The total anticipated cost for this project is \$35 million dollars, of which we have already raised \$20.5 million dollars.

We are currently at 95% capacity at our existing wastewater plant and last year had to require a delay of building more housing and limit a new development to 30-40 houses per year over 3 years until the new treatment plant is built. We provide housing for many people who work throughout Clatsop County and Warrenton has the most buildable land for future expansion and growth. Please consider this need and approve this capital infrastructure funding.

Sincerely,

Esther Moberg
City Manager
City of Warrenton
