Measure, Appointment or Topic: HB3789

It's clear that the intent of this bill is to silence anyone speaking in opposition to unions by creating conditions under which they can be falsely accused of impersonating a union representative - specifically one selected entity that the unions do not like. The premise of this bill is false so it's an answer to a problem that does not exist. This is a bad bill based on lies by the union. I oppose HB 3789 and so should you.
