Measure, Appointment or Topic: HB3789

I am an Oregon public school employee. I opted out of union dues with the Freedom Foundation's help. The union did not help me understand my rights under Janus. I wouldn't have known about my constitutional right to opt out if it wasn't for the Freedom Foundation. This bill is a dishonest attack to silence the Freedom Foundation, and by extension, suppress our rights as public employees. This bill is insulting to me as a public employee. I can make up my own mind about union membership and the information I receive.
