

Submitter: Brian Meixner

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: HB3932

Chair Golden and members of committee,

I am writing in support of HB3932 because I have seen the incredible impact that beavers can have on a degraded stream. Their work benefits the entire ecosystem and every living thing in it, including humans. The only thing we need to do to help them to repair the degraded waterways on our public lands is stop killing them. I believe the benefits that beavers provide far outweigh the lost opportunity for trappers on a small percentage of the land in our state. Thank you for your time and consideration.
