

Submitter: Kari Westlund

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB2977

I am concerned about HB2977 proposing a narrow and indirect funding source to tap for wildlife conservation. This important work should be more broadly supported by all beneficiaries of the work, which is all of us. I do not support targeting non-residents as an easy scapegoat given that they don't vote, and I don't support burdening a single industry in this way. It seems grossly unfair.
