

Submitter: Tanner Gilmore

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB243

No intellectually honest person believes any of these ridiculous bills will prevent any crime. Criminals don't go through background checks, criminals don't care about laws that ban the use of standard capacity magazines, criminals are criminals and by definition they are people who break laws. The statistics are clear, only 1.3% of all guns used in crimes are purchased legally the vast majority of crime guns are stolen. Rather than using time to work on solving the problems that democrats created like the fentanyl and homeless crisis that were caused by idiotic democrat policies this government is working overtime to make it more expensive and burdensome for law abiding Oregonians to exercise a constitutional right that they don't legally have the authority to do. If you tried to place these ridiculous fees and arbitrary barriers on any other constitutional right it would be getting national attention and people would be outraged. But democrats don't see the second amendment as a right they don't see any right as rights but as privileges that are granted by them especially the right to bear arms. The lawmakers in Oregon should all resign if they're unable to read and understand the constitution. The second amendment is less than a paragraph and written in simple English that even a child can understand. Nowhere does it say anything about shall not be infringed except for. Our public servants seem to forget they're public servants and they don't have the power to change the constitution or put caveats on our rights. Don't be ignorant tyrants, nobody believes democrats care about the communities they unleashed the fentanyl crisis on, the communities they release criminals into, the communities they take from and then take from some more. Democrats are liars and fakes who pretend (not well) that they are compassionate when it's obvious they only care about taking our money and controlling the lives of the law abiding. Meanwhile they release violent criminals on to our streets and act like it's because of legal guns in the hands of good people that creates the problem the democrats have loosed on us. People aren't stupid or blind, we see what our state government is doing and nobody is dumb enough to believe this garbage is anything but another way to steal our money and take our rights. Our rights aren't able to be voted away, our rights don't get taxed, our rights are ours and you don't have authority to make demands or place restrictions on. Learn your place and fixe the problems you caused, the problems actually affecting communities, guns aren't the problem, democrats are.
